

Complexity in the interactions

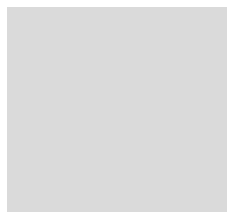

Complexity in the interactions

company

Conference theme:

“Towards sustainable synergy among water, energy and food”

Wider perspective of Dutch initiative

- Water-energy-food nexus is regional theme for NL.
- Build partnerships that will support concrete business cases
- Promote sustainable solutions in water-energy-food
- Dutch pavilion at Dubai EXPO2020 is on water-energy-food

This conference is the first step:

- to discuss holistic way to consider water-energy-food;
- to explore government support for nexus initiatives;
- to seek collaboration between knowledge institutes / universities;
- to discuss successful examples of an integrated nexus approach;
- to collect new ideas for KSA-NL collaboration.

Marhaba

Welkom
