Moderated by:

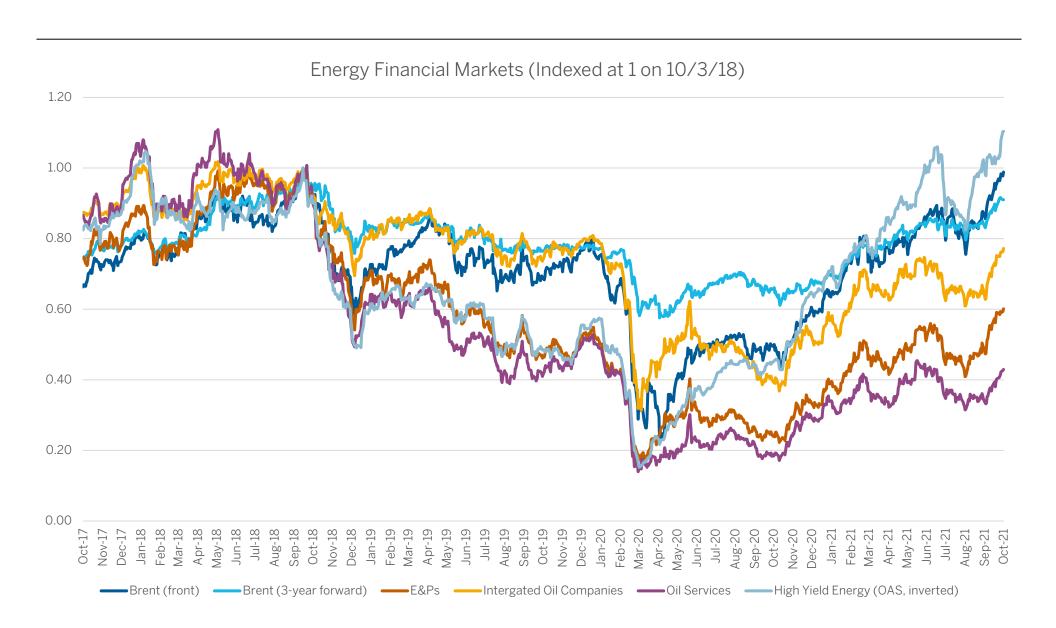

David Chang, Senior Managing Director, Wellington Asset Management

Oil Prices Have Doubled in a Year and at 2018 Highs

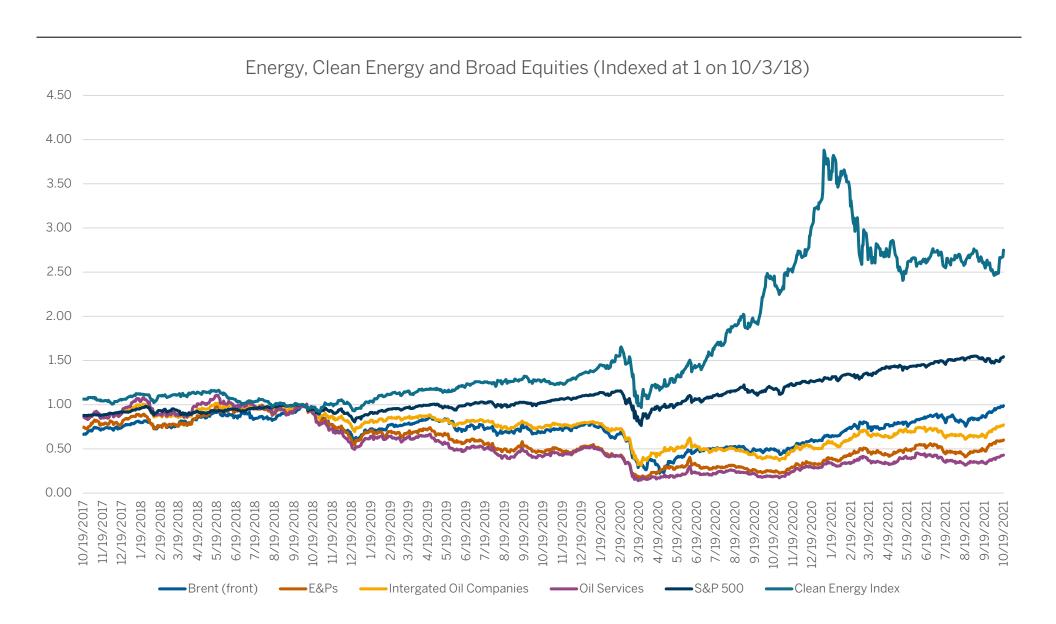

Sources: Bloomberg

Energy Equities Have Lagged the Oil Price Recovery

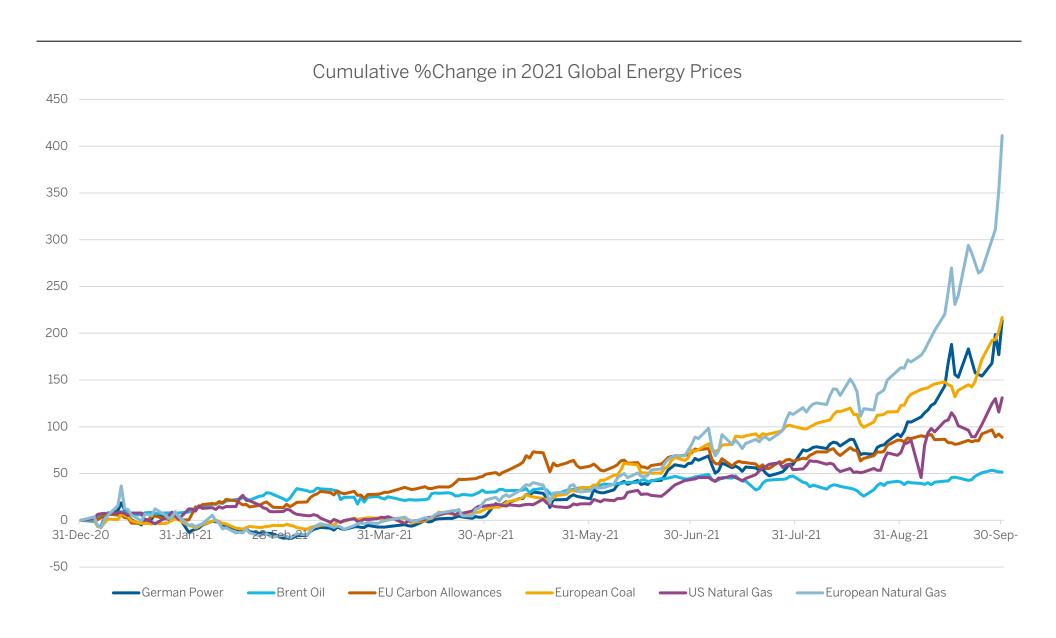

Sources: Bloomberg, S&P

Broad Equity Markets and Clean Energy Have Outperformed Until Recently

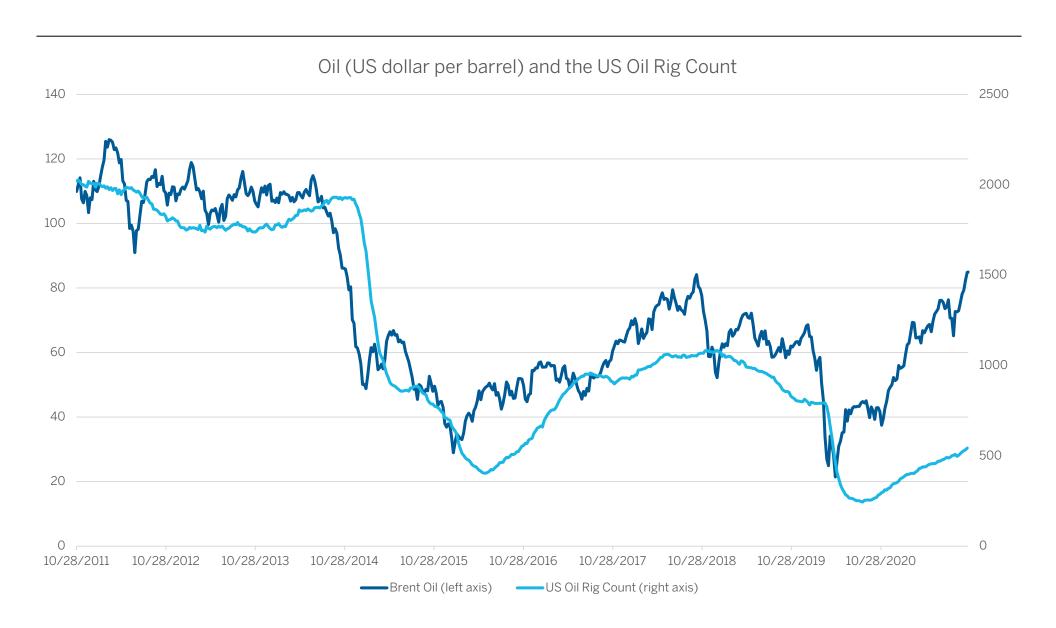

Sources: Bloomberg, S&P

Oil Has Lagged Other Energy Commodities such as Coal and Natural Gas

Drilling Activity Is Also Lagging Oil Prices

Main Questions and Topics for the Panel

What is the macro and fundamental backdrop for commodities and oil?

How are financial flows into oil shaping up and how will they impact the price?

How is ESG impacting financial investments into energy across asset classes?

Is capital discipline here to stay and what is the outlook for US capital spending?

How are private companies operating differently than their public counterparts?

What is the outlook for M&A?

How will the **energy transition** influence the outlook for oil fundamentals and is there a **cost to decarbonizing**?
