

Progress report on the Joint Organisations Data Initiative

Noé van Hulst, Secretary General, International Energy Forum (IEF)

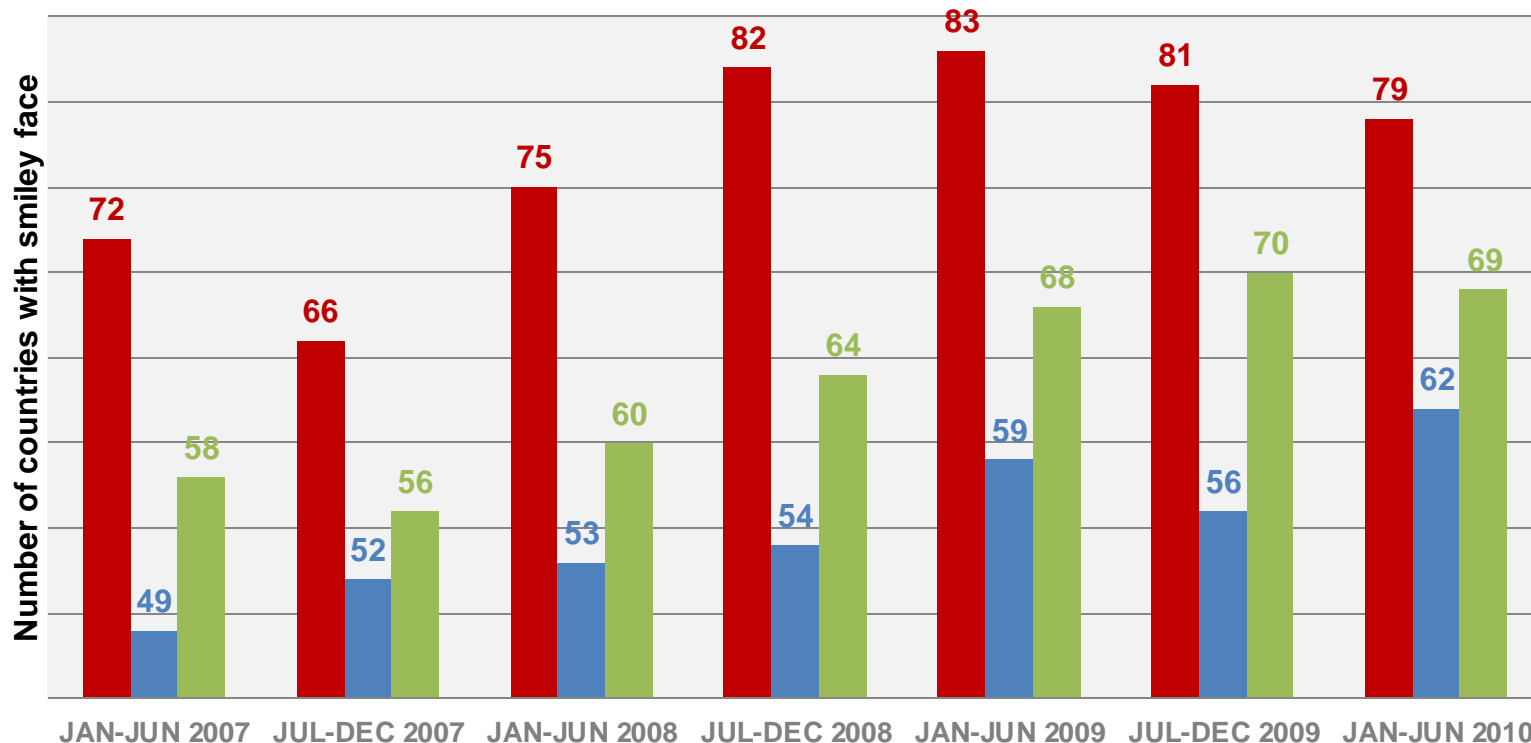

Achievements to date

- **Capacity building material: JodiOil Manual**
- **6 regional trainings since 2006**
- **Short term internships at IEF Headquarters**
- **Jodi becomes User-driven initiative**
- **Outreach to non participating countries/economies**
- **Communication platforms**

Assessment of participation in Jodi

Room for further improvement

■ Submission ■ Timeliness ■ Completeness

Requirements for further improvement

- **Addressing resources shortage in statistical divisions**
- **Building statistical capacity, experience sharing/transfer**
- **Setting an appropriate regulatory framework**
- **Addressing confidentiality issues**
- **Information beyond data**
- **Conduct more regular data checks**
- **Enhanced interaction with users**

Progress on JodiGas

- **Countries/economies participating JoilOil, 72 of which produce and/or consume natural gas**
- **Trial data collection on natural gas started in Dec 2009**
- **42 countries/economies participate**
- **Gas Data Transparency Conference, Moscow, 26 Oct 2010**
- **Participating organisations continue their work with member countries**
- **Need for a capacity building programme like JodiOil**
- **Collaborate with the Gas Exporting Countries Forum (GECF) to involve more producing countries in Gas in JODI-Gas**
- **The ongoing work will be continued and will hopefully result in the first launch of JodiGas before the end of 2011**

Progress on Jodi Investment

Addressing uncertainty on energy industry's future capacity to maintain supply and demand balance

- **Resource intensive process**
- **Proposed questionnaire format**
- **Some organisations have its on-going work**
- **Collection of annual data on investment**
- **Aiming at presenting a tangible progress by 13th IEF Ministerial in Kuwait in 2012**

Conclusion

Organisations are committed to:

- **keep training statisticians in charge of Jodi**
- **develop new tools and practices, to check regularly Jodi data and streamline data submission**
- **enhance interaction with data users**
- **upgrade Jodi related platforms**
- **release to public some of the additional data points by the next JodiOil Conference (fall 2011)**

Organisations call on participating countries/economies to:

- **ensure that administrations and organisations in charge of energy data collection are better equipped and staffed**
- **implement an appropriate regulation**
- **address confidentiality issues**
- **achieve a target of 3 smiley faces by the end of 2011**
